Don't Worry, We'll Be Watching You

Hey What's your name? Don't worry Don't be afraid We won't hurt you Hey Lost your way? Don't worry Just do as we say And we won't hurt you It's hard The world can lead you so astray It gets harder It's hard just to keep the faith Do you need a reminder Of the love that we gave you? Don't worry You're walking away But we'll always be watching you

(We'll always be watching you)
(We'll always be watching you)
