

Bad Little Doggie

Gov't Mule

Come in with the sunrise, who knows where you go
Smellin' like something, I don't want to know

Your sister can't save you, she don't know what to do
Your bad behavior has finally caught up to you
Bad little doggie

Soul all tweeked out, life line thin
Loose little school girl, what a shape you're in

Blue violence, red rosaries
Roots of evil growing into trees
I'm through messin', time to learn your lesson
Bad little doggie

I'm through messin', time to learn your lesson
Bad little doggie

Come in with the sunrise, gone with the wind
Devil in your eyes, pocket full of sin

Fire can't melt you when your mind's made up
Ice can't cool you, naughty little pup
Bad little doggie
Bad little doggie
Bad little doggie
