## **Lay Your Burden Down**

## Gov't Mule

It's heavy, lay your burden down
It's heavy, lay your burden down

Brother can't you see stars in the night Brother can't you see stars in the night There's a road up yonder far beyond the light

Take a ride this morning on a slow train through the sky Take a ride this morning on a slow train through the sky My life is just a fast train, gone in the blink of an eye

It's heavy, lay your burden down
It's heavy, lay your burden down

Felt the hand last Sunday when the stars refuse to shine Felt the hand last Sunday when the stars refuse to shine I'm just a young man, I don't feel like dying

It's heavy, lay your burden down
It's heavy, lay your burden down

Can't you hear the angels screaming or is it all in my head Can't you hear the angels screaming or is it all in my head Looking out my window and the sky is blood red

The sky is blood red

You got to lay your burden down
