

# I'll Be There In A Minute

Gowan

Dandelion keep on growin'  
Grass high could use some mowin'  
Wonder what the drive ins showing  
Sun beatin', heat keep risin'  
Hazy afternoon horizon  
Screen door just let the fly in

If you ain't got much to do  
Want a little you know who  
Call me up I promise you  
I'll be there in a minute

Lemonade in tall cool glasses  
Air thick like black molasses  
Perfect day for private classes  
Chocolate meltin' in a sweetbox  
Hotter than a hooker's street talk  
And all I'm wearin' are my Reeboks

If you ain't got much to do  
Want a little you know who  
Call me up I promise you  
I'll be there in a minute

I won't move for much at all  
'Less I hear your beck'n call  
If you got some time to kill  
If you got a slot to fill  
YOur know I swear I will, I will, I will  
I'll be there in a minute

If you ain't got much to do  
Want a little you know who  
Call me up I promise you  
I'll be there in a minute
