

# Delirious

Grace Potter

Can't sleep, I can't resist  
The street lights are so persistent  
They keep calling out to me  
From the dark side of the city  
Hey hey, is anybody still awake  
Let's make some magic before the day breaks  
Don't wanna sleep, it's not mysterious  
I just love the way I feel when I, when I get

Delirious, delirious

And the day turns into night  
Turns into day, turns into delirious  
Another day turns into night  
Turns into day, and I'm still delirious

I never close my eyes  
'Cause I don't know what's waiting on the other side  
And life's just too good to miss  
And that's why I never sleep  
I love the way I feel when I'm

Delirious, delirious

And the day turns into night  
Turns into day, turns into delirious  
Another day turns into night  
Turns into day, and I'm still delirious

And I know I'm gonna fall  
Into this twisted place  
I'm sliding deeper as I override my mind  
And I'm delirious (delirious)

And the day turns into night  
Turns into day, turns into delirious  
Another day turns into night  
Turns into day, and I'm still delirious

Another day turns into night  
Turns into day, turns into delirious  
Another day turns into night  
Can't get away from being delirious
