

# Florets

Grace VanderWaal

Wake up  
In a dream dream dream  
But the air is soft  
To breathe breathe breathe

So hold on and don't let go  
If you fall down, then you should know  
That we can just be

Blowing florets  
I want to dance in the air  
Blowing florets  
And just not care about anyone or anything  
But you and me

So don't let go of me  
Don't let go of me  
Don't let go

And rise up, like the trees trees trees  
And let go of all responsibilities  
And we can just be

Blowing florets  
I wanna dance in the air  
Blowing florets  
And just not care about anyone or anything  
But you and me

So don't let go of me  
Don't let go of me  
Don't let go

Wherever the wind blows  
Ever the wind blows  
Don't let go

Oh  
Wherever the wind blows  
Ever the wind blows  
Don't let go

Florets  
I wanna dance in the air  
Blowing florets  
And just not care about anyone or anything  
But you and me

So don't let go of me  
Don't let go of me  
Don't let go of me

Wherever the wind blows  
Ever the wind blows  
Don't let go

Wherever the wind blows

Ever the wind blows  
Don't let go
