

Pacific Coast Eyes

Graham Colton

You made it out of that one house little town
Told yourself would let nobody slow you down
You say goodbye cause you wanted something more
You got a way with you downtown city life
You gonna stay till your somebody's second wife
Where to begin cause you're moving it in to the top floor
Yeah

You got around but you're still just passing through
Those other girls they haven't heard the last from you
You don't stop cause you're setting up shop into the next town

If you leave a mess you leave it all behind
And you still make it back in the nick of time
And you can stay all night if the price is right
You let them come on down

Say you're goodbyes
Your pacific coast eyes start to close
And I'm on the outside
Well maybe its time
Your pacific coast eyes come back home
And I'm on the outside

You made it out of that one house little town
Those other boys you know are gonna come around
You say goodbye said you've never been sure

But now made a mess but leave it all behind
And you still make it back in the nick of time
If you say your goodbyes and hello to blue skis
Sending a post card from your pacific coast eyes

Say you're goodbyes
Your pacific coast eyes start to close
And I'm on the outside
Well maybe its time
Your pacific coast eyes come back home
And I'm on the outside

Now you're everything you wanna be
There's still so much that you don't wanna see

Say you're goodbyes
Your pacific coast eyes start to close
And I'm on the outside
Well maybe its time
Your pacific coast eyes come back home
And I'm on the outside

Say you're goodbyes
Pacific coast eyes start to close
And I'm on the outside
It's a matter of time
Your pacific coast eyes start to roam
And I'm on the outside

Say all your lies
Your pacific coast eyes start to close
And I'm on the outside
In your one house little town
