

Save Me

Graham Colton

It's late and i'm losing sleep
wonderin where you might be
i channel flip through the t.v stations
curse myself that i don't leave
This addiction keeps me hangin on
makes me wonder why i'm not strong enough

Save me,
won't you save me from myself
save me again
It feels like love's suicide
with every lesson i unlearn
countless times i've said goodbye
but you're the bridge that i can't burn
This obsession keeps me hangin on
makes me wonder why it's better when you're gone

Save me,
won't you save me from myself
save me again
You say you miss me cuz you're vulnerable
like a habit i can't quit
you here me knocking, i'm at your door
but don't open it, no don't let me in
