

You Find A Way

Graham Colton

I'm writing you for the hundredth time
cuz ninety nine I threw away
And in my mind a thousand times
I've said everything I wanna say
I've said everything I wanna say

But you find a way to keep me hanging on
You find a way to make everything go wrong
It's the way you lose me
Say you choose me
Then pass me by like you never knew me
You find a way to lead me on

I change my mind a thousand times
but circumstances stay the same
I told you no an hour ago
I've said everything I wanna say
I've said everything I need to say

But you find a way to keep me hanging on
You find a way to make everything go wrong
It's the way you lose me
Say you choose me
Then pass me by like you never knew me
Til I find a way of moving on

And when I think I've figured out
I've found a way to live without
You come around and everything's all wrong
I'm waking up alone at night remembering
when the time was right
You're only here a moment then you're gone

You find a way to keep me hanging on
You find a way to make everything go wrong
It's the way you lose me
Say you choose me
Then pass me by like you never knew me
You find a way to lead me on

You find a way to keep me hanging on
You find a way to make everything go wrong
It's the way you lose me
Say you choose me
Then pass me by like you never knew me
You find a way to lead me on

Til I find a way of moving on
You find a way you lead me on
I'll find a way
I'm movin on
