

If You Want Me

Graham Coxon

If you want me, come and get me
If you want me, you'll be there
In the daytime, in the night time
Over here and, over there

It's oh so serious
It's oh so lame
I'm half delirious,
When you call my name

If you want me, come and get me
If you want me, you'll be there
In the daytime, in the night time
Over here and, over there

It's oh so serious
It's oh so lame
I'm half delirious,
When you call my name

If you want me, come and get me
If you want me, you'll be there
It's oh so serious
It's oh so lame
