

Just A State Of Mind

Graham Coxon

Emptiness I've found you
How bleak you are
Moving in the shadows
You're here and it's clear that it's
Just a state of mind, running through the times
Keeping us alive

First time that I saw you
Teeth squeezed by lips
And I though I'd die without you
But you're here and it's clear that it's
Just a state of mind ,running through the times
Keeping us alive
Just a state of mind, keeping us in line
Before we take a dive

Just be happy you are strong now, it's so lonely to love
someone

Happiness I've found you
How sweet you are
Smiling in the shadows
You're here and its clear
That its just a state of mind, running through the times
Keeping us alive
Just a state of mind, keeping us in line
Before we take a dive
