

Walking Down The Highway

Graham Coxon

Walking down the highway
Looking for my soul
Gonna do it the dry way
Twitching like a fool

Hitching 'cross the plains
Trying to find a way
Lord please let it rain
My life's slipping away

I'm holding my head up high
Thinking of those who cannot breathe
My head is above water
But my body is down beneath

Floating down the river
Underneath the ground
Help me to deliver
The evil that I found

I'm holding my head up high
I'm thinking of those who cannot breathe
My head is above water
But my body is down beneath

I'm holding my head up high
I'm thinking of those who cannot breathe
My head is above water
But my body is down beneath

Walking down the highway
Walking down the highway
Walking down the highway
Walking down the highway
