

# You Always Let Me Down

Graham Coxon

You talk about money  
You talk about soul  
I guess you better get some before you get too old  
Lay down on your side and say bye bye

You talk about money  
You talk about soul  
I guess you'd better get some before you get too too  
too old  
Lay down on your side and say bye bye

I know they're sayin' that I never tried to stay by  
your side  
Oh baby baby they'll take you for a ride

You always let me down  
You always

You talk about money  
There ain't none around  
You can't seem to let me have the freedom that I found  
Drop your foolish pride and say bye bye

What you sayin' that you haven't tried to say before?  
Oh baby you know you been had before

You always let me down

Yeah yeah yeah yeah!

I know they're sayin' that I never tried to stay by  
your side  
Well baby baby they'll take you for a ride

You always let me down  
You always let me down, first chance you get  
You always let me down
