

# It's All Right

Graham Nash

When I see you beside me, smiling at me  
I feel warm deep inside me 'cause I think I love you  
When I feel you surrounding me, making me strong  
I've got warm glow around me, because I think I love you

And it's all right, all right, needless to say  
I feel all right, all right, I'll be here when you awake

Looking down the roadway, tell you what I see  
Lots of lonely heartaches, lots of feeling blue  
Looking up the roadway, tell you what I see, I see you

So it's all right, all right, needless to say  
I feel all right, all right. I'll be here when you awake

Looking down the roadway, tell you what I see  
There's lots of lonely heartaches, lots of feeling blue  
Looking up the roadway, tell you what I see, I see you, you, you

'Cause when I see you beside me, smiling at me  
I feel warm deep inside me 'cause I think I love you, yes I do

And it's all right, all right, needless to say  
I feel all right, I'll be here when you awake  
And it's all right, all right, needless to say  
I feel all right, I'll be here when you awake
