

Love Has Come

Graham Nash

Love has come
And taken me
Out of my mind
I've got so much to find out
So much to give out
So much to take in
And pass on again

The sun has come
Awaking me
Out of my dream
I've got someone to lean on
Talk to and turn on
Talk to and turn on

Love can find you, love can find you
You've got to be there
Love can find you, love can find you
You've got to be there
Someone will care

You have come
Fulfilling me
Taking me over my head
All of my love is with you
Part of my soul is in you
Taking me higher

Love can find you, love can find you
You've got to be there
Love can find you, love can find you
You've got to be there
Someone will care
