

Newday

Graham Nash

Where was I yesterday?
Have I been there once before?
And who was I yesterday?
Don't wanna be him no more

It's a newday, it's a newday

Where will I be tomorrow?
I hope I've never been there
And who will I be tomorrow?
I really hope I'm still here

It's a newday, it's a newday
It's a newday, it's a newday

I'm gonna look for the light
You're all I need to make it right
I'm gonna look for the light

It's a newday, look for the light
It's a newday, look for the light
It's a newday, look for the light
It's a newday, look for the light
