

# Black Lincoln Continental

Graham Parker

Shake that cocktail and follow the road  
The doors are locked and the windows are closed  
There's only one way to the American dream  
They're awaiting your arrival in a big limousine

In the back of a, black... in the back of a, black..in the back  
of a, black  
Lincoln continental, Lincoln continental Lincoln continental,  
Black black, Lincoln continental black black, Lincoln continent  
al,  
Black black, Lincoln continental

They take you to dinner and you eat off the plate  
And you don't taste the poison until it's too late  
And seven years later something is funny  
Is it the black upholstery or the dirty money?

In the back of a, black in the back of a, black..in the back of  
a, black  
Lincoln continental, Lincoln continental Lincoln continental,  
Black black, Lincoln continental black black, Lincoln continent  
al,  
Black black, Lincoln continental

The rugs all fake made of Persian jute  
And the chauffeur got the job by actin' cute  
He's watching the speedometer and counting your money  
And the big white lines make your heart beat funny

In the back of a, black... in the back of a, black..in the back  
of a, black...  
Lincoln continental, Lincoln continental Lincoln continental,  
Black black, Lincoln continental black black, Lincoln continent  
al,  
Black black, Lincoln continental
