

Call Me Your Doctor

Graham Parker

Call me your doctor if you want, I'll get the cure out
To be administered before sleep
Call out the thing you really want And I'll be there
I'll make a housecall
I'll find the problem's root No matter how deep

Call me your doctor
Call me your doctor
Call me your doctor
Call me your doctor

My hours can be flexible I'll never fail you girl
I'll lay my practice out at your feet
I don't have the skill to save the world
The national health is not my concern
But I'm legitimate ain't no cheat

Call me your doctor if you want I'll be there with bedside mann
ers
I'd love to treat you Baby treat you real good

Oooh ooh ooh ooh oooh uh uh uh uh oh yeah
Call me your doctor Oooh ooh ohh ay ay ay
call me your doctor oh oh oh yeah
Call me your doctor
