

Everything Goes

Graham Parker

Another schoolgirl disappears
She's the twenty-third one this year
They're gonna search on the river bank
And in the disused water tank

But everything goes (don't worry) don't worry baby
Everything'll work out fine
But everything goes (don't worry) daddy's got a job
Waiting on the welfare line

Another train hits another train causing grief, suffering and pain
They're gonna find it's a signal fault the survivors are still distraught

But everything goes (don't worry) don't worry baby
Everything'll work out fine
But everything goes (don't worry) daddy's on drugs
Mummy's on the welfare line

And the schoolgirl's books are found in the lane
Not far from where she lived
And a man is held in a foreign jail we don't want to let him live

But everything goes (don't worry) don't worry baby
Everything'll work out fine
But everything goes (don't worry) daddy's on drugs
Mummy's on the welfare line
