

Pourin' It All Out

Graham Parker

Yeah it's cold and hot and the rain came tumbling down like a wild December night

No love left out on your front door step all gone and out of sight

I don't mind telling you what I'm going through

I don't mind telling you baby cause every word it true
Sometimes I feel like pourin' it all out
Sometimes I feel like pourin' it all out
Sometimes I feel like pourin' it all out

Tonight all night all right

Verse

Then I found myself in a new year celebration crying alone in a crowd

Yeah that really was some new year celebration all bravado was strong and loud

Repeat chorus, solo, then repeat chorus then,

I said tonight all night all right,

Solo (oh oh oh, yeah yeah, hey hey, mmm mmm) /pre>
