

See Things My Way

Graham Parker

There is more than one of me
So many I lose count
But sometimes that's the fun of me
That's what I'm all about

But I'll be there for you
And you know that that's true
I just can't guarantee
Which one of me it's going to be so

See things my way
(Come on) See things my way
(Can you) See things my way
See things my way

And all the pieces fit
Like pieces in a puzzle do
The joins are jagged the edges rough
But the heart is straight and true

Well this one's fragile this one's tough
This one's kind of blue
This one has a lot of things that
Remind me of you

See things my way
(Come on) See things my way
(Can you) See things my way
See things my way, my way, my way, my way

A brighter shade of red
Like sunshine on my bed
But everybody's head
Is filled with more than just one soul

See things my way
(Can you) See things my way
(Will you) See things my way
See things my way, my way, my way

See things my way
(Can you) See things my way
(Will you) See things my way
See things my way, my way, my way
See things my way
