

# Something You're Going Through

Graham Parker

Take your money and take your time  
You already taken mine

I bet your wondering how it's gone this way  
The shoes on the other foot now Bet you're wondering how but

It's just something you're going through  
Just something you're going through  
Just something you're going through  
You better keep your eyes open Keep your eyes open  
You better keep your eyes open

What kind of prizes you going to heap on me?  
What kind of love lay at my door?  
What kind of mercy you going to show to me?  
When I'm lying on the floor ... come on baby

All this praise it's just a passing phase  
Pretty soon you'll change your tune  
You build me up, like a while to knock me down?  
I don't trust you baby it's something to see through  
Come on baby yeah uh uh You better keep your eyes open

Come on down out of the stratosphere  
You don't need to look for clues  
Because I've been up there and it still ain't clear  
It's just like jumping at the moon ... jumping

Just something you're going through Ju ju ju ju ju ju  
Just something you're going through You better keep your eyes o  
pen  
Yeah yeah yeah yeah yeah You better keep your eyes open  
Hey hey Oh oh oh oh oh Mmmm mmm mm Hey hey (ENDS ON B)
