Graham Parker

```
Pre>
Be g#m e f#
Take every, take every, take everything
Take every, take every, take everything
C#m e c#m f#
Don't tell me that you're above it, you might as well learn to
love it
C#m e c#m be f#
It's just a natural obsession, keep your mouth full
The sky is thick with the fuse wire you think it's safe in your
room
Hoping the very next boom won't be the big one
be g#m e f#
Take everything you can and run, that's the way it's done
Be g#m e f#
What's on your shoulders must weigh a ton, that's for having fu
n
Be g#m e f# e
Shoot all of those bullets out of that gun, now before they exp
lude inside you
Come home with a pack of dioxin, we need brand names on our tox
ins
For people who's lives are boxed in, just like ours are
You don't have to shoot your mouth off, but baby, please don't
cough
You don't have to sell your soul just to admit it
Take everything you can and run, that's the way it's done
Don't think of this world baby it's gone, that's for having fun
You might not be here when the sun, gets pulled out of the sky
above you

Take every, take every, take everything
Take every, take every, take everything

It's just a natural obsession, keep your mouth full
Take everything you can and run, that's the way it's done
What's on your shoulders must weigh a ton, and blots out the su
