

## Got This Thing on the Move

Grand Funk Railroad

Come on over to my side, it's where you wanna be  
Come on over to joy ride and let your morals be  
Ain't no way to deny it, if it's in your soul  
You don't know 'till you try it, baby, let the good time roll

Let me taste your life, let me fill your stream  
Let me make you feel it right now, just lay back and dream  
Got this thing on the move, it's beginnin'  
Got a strange kind of feeling under my skin

I hear my baby knockin' at my front door  
She knows what I got, she wants some more  
And when it's all over, I start to come down  
Think just a restin' place, I'll leave the ground
