

Dominator

Grand Magus

He made a promise many years ago to break and scorch the land
He had a need for destruction and to bend us to the ground
He swore an oath: To bring us fear and pain
To never bend or rest until it's done - before he had become

The dominator - freedom hater - he will break us, crush our dreams

Amputator - lacerator - spreading madness, mindless hate - dominate

Bringing everlasting pain

So many tragedies and years ago for you to understand

The devastation that he brought will leave a mark until the end

He swore an oath - to bring us fear and pain

To never bend or rest until it's done - before he had become

The dominator - freedom hater - he will break us, crush our dreams

Amputator - lacerator - spreading madness, mindless hate - dominate

He walks alone

He'll put out our fire with scorn

He'll never rest - just enslave us

Destroyer of beasts and of man

Enforcer of madness and pain

He's sworn to break us - the dominator

Born of hate - Crush and break - Annihilate - Dominate

I swore an oath - I will reverse his plan

I will restore - bringing power to the land, but the price is that I am

The dominator - freedom hater - I will bleed you, crush your dreams

Amputator - lacerator - spreading madness, mindless hate - breathing pain

Born of hate - Crush and break - Annihilate - Dominate
