

# Valhalla Rising

Grand Magus

Feel - take my hand  
See - wasted lands

'Cause I lost my fire, and it's tearing up my soul  
Got to fight if I want it  
So tired of liars, they're filling me with shame  
Got to fight and get stronger

But the road is long and treachery awaits  
To find what's wrong I have to reach and reveal to see

Valhalla rising - I'm taking flight  
Let Valkyries guide me to my destiny  
Valhalla rising - I burn tonight  
Let ravens fly and give my soul release  
The fire is the seed

Take my hand!  
No more wasted lands...

I restored my fire now it's filling up my soul  
Even though I was broken  
And I fought the liars - the worst of all was me  
All the false words I'd spoken

As I travelled on I realised my fate  
It made me strong and now I finally see what's been revealed

Valhalla rising - I'm taking flight  
Let Valkyries guide me to my destiny  
Valhalla rising - I burn tonight  
Let ravens fly and give my soul release  
The fire was the seed

Take my hand!  
No more wasted lands...

And now I finally see what's been revealed

Valhalla rising - I'm taking flight  
Let Valkyries guide me to my destiny  
Valhalla rising - I burn tonight  
Let ravens fly and give my soul release  
The fire was the seed

Take my hand!
