

Alan Parsons In A Winter Wonderland

Grandaddy

sleigh bells ring
are you listening
in the studio
the lights are glistening
a beautiful night
we're happy tonight
Alan Parsons in a winter wonderland

gone away
is the blue bird
here to stay
is the new bird
he records a love song
the production's right on
Alan Parsons in a winter wonderland

in the meadow we can build a snowman
and pretend that he is Alan Parsons
he'll say have you listened to my new band
we'll say no but we really like that one song
it goes time keeps flowing like a river

in the winter we can build a snowman
and pretend that he is Alan Parsons
he'll say have you listened to my new band
i can put you on a list
for a show in Carson City

Later on
when we were tired
as we drew
by the fire
of the eye in the sky
that was with us tonight
Alan Parsons in a winter wonderland

although my favourite songs
have notes that are wrong
Alan Parsons in a winter wonderland

and there's digital snow
and frozen pianos
Alan Parsons in a winter wonderland

and electronic bands
with frostbitten hands
Alan Parsons in a winter wonderland

at the end of the day
his albums will play
Alan Parsons in a winter wonderland
