

El Caminos In The West

Grandaddy

So there's my baby, laughing at me in the sun
Wonder if I'm the weaker one
I feel so far away from home
Always so far away

The pacific, will pacify us when we're done
If only we weren't always spun
I feel so far away from home
Always so far away

From El Caminos in the west
All collapsed and futureless
I'll paint the words a simple wish
For peace of mind and happiness

El Caminos in the west
We're all collapsed and futureless
I'll paint the words a simple wish
For peace of mind and happiness

Here comes the chaos, perfectly on time again
Well is it ever gonna end?
I feel so far away from home
Always so far away

The demolition still can be a lot of fun
Someone should tell me that I'm done
I feel so far away from home
Always so far away

From El Caminos in the west
We're all collapsed and futureless
I'll paint the words a simple wish
For peace of mind and happiness

El Caminos in the west
We're all collapsed and futureless
I'll paint the words a simple wish
For peace of mind and happiness
