

Hands Down

Granian

Laying around in the mud
With my face down
Throw rocks and stones across it
It's alright
If I said something
Would you believe me true
And still not complain about it
Say "I'm right, I'm right"

I heard
It's taken me long to see you rise
You will not back down
And I heard
You're more than me
Hands Down

Just around the bend
There's a man with a
Cross inside his hand
Holding you back from something
When the world has gone past

I heard
It's taken me long to see in your eyes
You will not back down
And I heard
You're more than me
Hands Down

So over in my head
This can't go on
Misleading me on and on
I will not fall
It's in my head I will come down all on my own
Only on my own
