

Hang Around

Granian

Wait with me 'til morning rises
As, you turn to go
For just one moment, just one time
This time let it show
Walk with me until this road ends or
To where it leads
Would you care if it dropped you in
The middle of nowhere
Can you hear me?
Hang around your head
Can you taste it?
Hang around, your heaven's just ahead
Come now, don't you lie
You've had the needle already stuck in your eye
More than you claim
Could you swear upon your honor that
You never cared
Can you feel me?
Hang around your head
Can you taste it?
Hang around just hang around and see
Dzap!
Can you hear me?
Hang around your head
Can you taste it?
Hang around just hang around and see
Can you feel it?
Banging on your head, hang around.
Can you taste it?
Hang around, your heaven's just ahead.
When it all comes crashing down on you, Hang around.
When it all comes crashing down on you, Hang around.
