

# Honey Don't Think

Grant Lee Buffalo

It's the luck of the draw  
How you wound up with me  
I don't know how at all  
But I beg you to stay  
Crawl around on this earth  
While the world's still small

Honey, don't think  
About it too long now  
Honey, don't think  
You're liable to figure me out

Something wrong in my stars  
Could you look at my chart  
And help me heal these scars?  
Could you learn to read minds?  
In the case of mine  
Do you read in the dark?

Honey, don't think  
About it too long now  
Honey, don't think  
You're liable to figure me out  
You don't want to figure me out  
You don't want to figure me out

Honey, don't think  
About it too long now  
Honey, don't think  
You're liable to figure me out
