

# The Only Way Down

Grant Lee Buffalo

You've come this far  
Followed each  
And every star  
Not to reach  
The peak would seem so wrong  
Your eyes look tired  
Want to sleep  
Although this climb's  
So steep  
We must keep pressing on

Down it's the only way down  
It's the only way down  
Down it's the only way down  
It's the only way down

I've heard you sing  
Quiet voice  
Of adverse things  
Now you've made the choice  
To overcome  
This mountains' spire  
Towering  
Below the summit  
Cowering  
You've seen how others clung

Down it's the only way down  
It's the only way down  
Down it's the only way down  
It's the only way down

You've come this far  
Along this wind  
Around this bend  
Now look at where you are
