

## Call for War

Grave Digger

From the mountains to the sea  
We hear the battle cries  
Enemies not far away  
We're standing side by side

Freedom we won't give up  
We never walk alone  
We hold our shields high in the sky  
Never surrender till we die

We ride into the sun  
We never hide and never run

We all call for war  
No fear of life and death  
We all call for war  
Fight till your last breath  
We call for war

Sparks fly high when steel meets steel  
We send them straight to hell  
Spirit of the brave with us  
We take our last farewell

We ride into the sun  
We never hide and never run

We all call for war  
No fear of life and death  
We all call for war  
Fight till your last breath  
We call for war
