

# Death Angel & The Grave Digger

## Grave Digger

Side by side at the open grave  
She took my hand and danced with me  
Everything you can think of this is true  
On the razors edge, I'm dancing to you

All of my dreams are lost and found  
My whole life is nailed to the ground  
I paid the price for a game I couldn't win  
Blood and thunder... That is my sin

One last kiss  
Take me home  
Spread your wings  
Where I'll be king

Voices of disaster, rain that never ends  
Now and forever in passionate flames  
At the end of the day, please pull the trigger  
Two souls collide, Death Angel and the Grave Digger

A thousand times I've stood on a sheer  
To find my freedom, a life without fear  
Save me, rape me, feed me with misery  
On wings of hope, I run from reality

A bucket full of dimes has been never enough  
To leave the bad side, getting out of the slough  
I spit on the bullet, I'm dead now for hours  
Please put on my grave the dreamland flowers

One last kiss  
Take me home  
Spread your wings  
Where I'll be king

Voices of disaster, rain that never ends  
Now and forever in passionate flames  
At the end of the day, please pull the trigger  
Two souls collide, Death Angel and the Grave Digger
