

Grave Desecrator

Grave Digger

Out of the coffin your soul cries for mercy
But I have nailed the lid forever
Bagpipers play tunes of sorrow
I cover your bones with moss and mud

I dance on your coffin celebrating the end
I call all the rats your last supper my friend

Grave grave grave grave desecrator
I am the humans greatest hater
Grave grave grave grave desecrator
The last human traitor
Grave grave grave grave desecrator
I am the humans greatest hater
Grave grave grave grave desecrator
The last dictator

Six feet under will be your paradise
Worms and spiders by your side
Hallowed be your name eternally
Your rotting corpse I take carefully

I dance on your coffin celebrating the end
I call all the rats your last supper my friend

Grave grave grave grave desecrator
I am the humans greatest hater
Grave grave grave grave desecrator
The last human traitor
Grave grave grave grave desecrator
I am the humans greatest hater
Grave grave grave grave desecrator
The last dictator

I dance on your coffin celebrating the end
I call all the rats your last supper my friend
Your last supper my friend
Your last supper my friend

Grave grave grave grave desecrator
I am the humans greatest hater
Grave grave grave grave desecrator
The last human traitor
Grave grave grave grave desecrator
I am the humans greatest hater
Grave grave grave grave desecrator
The last dictator
