

# Heart of Darkness

## Grave Digger

In every man there's good and bad  
Madness lurks in every brain  
Do you know what's deep in your head  
Are you a genius or insane  
Sometimes the borders deep in you just fall  
General's gone mad in Vietnam  
Became a god a lonely one  
Once a soldier of great fame he was  
Now killing seems all the same in wars  
Sometimes the other side breaks through the wall  
You do your duty, just don't ask why  
Kill him with a cold heart, he's damned to die  
The river leads you all the way, you never stop  
You fight to live another day, can't ever stop  
We're fighting for freedom  
We're fighting for peace  
We're serving our country  
We're fighting for god  
You feel the madness, the jungle breeds  
It all seems useless, heroic deeds  
Madness creeps into your deepest core, and in your soul

In the heart of darkness  
I see the fire in the eastern sky  
In the heart of darkness  
Soldiers fighting for a lie

Man, you're crazy, believe me, you're not god  
Who's to say so, ain't we, all the same  
Man, you slaughter, it's useless, what's your game  
All is useless, was games, it seems insane  
I observed a snail creeping on the edge of a razor blade  
That's my dream, that is my nightmare  
To creep on the edge of the razor blade and survive  
You did your duty, the general is dead  
But you paid a high price, your mind's gone mad  
Somehow the general had his way, a point of no return  
The memories haunt you night and day, in your soul the burn
