

## Kill Ritual

Grave Digger

Can't wait to touch you  
I watch you night by night  
My blood red starring eyes  
Watch you move, perverse delight  
In my dreams I follow you  
I watch your steps in the light  
You feel my cold cruel breath  
But I'm out of sight

Swear you love me  
You will survive  
All my life  
It just feels right

Now it's time to bleed  
Satisfaction guaranteed  
Killing is so beautiful  
Dying screams so lyrical  
Now it's time to bleed  
Satisfaction guaranteed  
Dying is no miracle  
See the kill kill ritual  
Kill kill ritual

I was born to love you  
Don't run and hide  
My fingers touch your soul  
My mind's out of control  
I took my knife, slit your neck  
Ready for the last attack  
What have I done  
Took your life in the midnight sun
