You bloody liar
I feel the spear
You've spread the poison
And I've learned my lesson
I hear the wind,
Whispering in my ear
I see the light of day
I feel death is near

Murderer - What have you done Murderer - The hero's gone Murderer - With pain you shall die

Murderer - Your soul will cry

The sun goes down, the night is falling Gods of darkness surround my soul You faceless evil, you took my blood, Heaven knows who murdered me

Murderer - What have you done Murderer - The hero's gone

Murderer - With pain you shall die

Murderer - Your soul will cry
