

Rebel of Damnation

Grave Digger

When I was sixteen I had a dream
To bring myself out and start to scream
I am the son of Judas seen like a priest
In my deepest soul lurks a beast
I laugh and defy I break the strain
My father a devil I had him slain
Steel in my heart I'm lookin' for a fight
I'm a human animal a wolf in the night

The pain the sorrow the song remains insane
The hate the horror rebellion in my veins

The capital of metal living a life an everyday battle
Raise your fist lost generation
Trust your fate rebel of damnation

God by my side but he won't save me
In this world there's no place to be
Now I realize my life was a lie
I believe in metal til the day I die

The pain the sorrow the song remains insane
The hate the horror rebellion in my veins

The capital of metal living a life an everyday battle
Raise your fist lost generation
Trust your fate rebel of damnation
The capital of metal living a life an everyday battle
Raise your fist lost generation
Trust your fate rebel of damnation
Rebel rebel rebel rebel rebel of damnation

The capital of metal living a life an everyday battle
Raise your fist lost generation
Trust your fate rebel of damnation
The capital of metal living a life an everyday battle
Raise your fist lost generation
Trust your fate rebel rebel rebel rebel
