

## Road Rage Killer

Grave Digger

Straight into the sun warrior of the eastern world  
On the road to Babylon far away from Avalon  
Walls can't stop me I'm on the prowl  
Brought a couple to death  
Intoxicated by crystal meth

I am the killer the road rage killer  
Hell on wheels the master of steel  
I am the killer the road rage killer  
Faster than light evil of the night road rage killer

Don't look around and never look back  
Get your eyes straight ahead get ready for attack  
Fear isn't my friend huh huh huh haa  
A word I've never heard  
Rage is my passion death will be my end

I am the killer the road rage killer  
Hell on wheels the master of steel  
I am the killer the road rage killer  
Faster than light evil of the night

I am the killer the road rage killer  
Hell on wheels the master of steel  
I am the killer the road rage killer  
Faster than light evil of the night  
I am the killer the road rage killer  
Hell on wheels the master of steel  
I am the killer the road rage killer  
Faster than light evil of the night
