

Ship Of Hope

Grave Digger

Darkness falls all over the land
Wings of blood
Strike through the clouds
Summer is over
It's time to say goodbye
The end is near
Escape from reality
Sailing across the sea
With the ship of hope
We start to escape
But the end is near
The journey a lie
On the ship of hope we die
Last days on mother earth
On the horizon
We seeing a brave new world
In prisons, in the claws
Rather ... can pay
The circle of ...
Is ... again
The end is near
Escape from reality
Sailing across the sea
With the ship of hope
We start to escape
But the end is near
The journey a lie
On the ship of hope we die
Escape from reality
Sailing across the sea
With the ship of hope
We start to escape
But the end is near
The journey a lie
Escape from reality
Sailing across the sea
With the ship of hope
We start to escape
But the end is near
The journey a lie
On the ship of hope we die
