## **Wild And Dangerous**

## **Grave Digger**

Evil thoughts and evil doings
Cold alone you hang in ruins
You're living fast now life
goes over
Now you're know you are a
loser
Bloody dreams and nice white
rats
Death is calling for your
head
You can't escape you run for
cover
Say good by and tell your
mother

I'm wild - wild and
dangerous
I'm wild - wild and
dangerous

Empty bottles and empty glasses
The day is over you waiting for darkness
Night by night the same procedure
You never listen to the preacher
Mr.Blackman and Mr.Whitehead
Taking your soul and brings you dead
Take the key, unlock the door
See the light that marks the right floor

She's wild - wild and dangerous
She's wild - wild and dangerous

Bloody dreams and nice white rats
Death is calling for your head
You can't escape you run for cover
Say good by and tell your mummy

I'm wild - wild and
dangerous
I'm wild - wild and
dangerous
She's wild - wild and
dangerous

She's wild - wild and dangerous
