

# Genocide

## Grave

Close your eyes fall into the arms of Morpheus  
Come below with me into my kingdom you  
Will fall

Fall from your dream in a blood stream  
Fall from life into my paradisaal genocide

Visualize the darkest world of morbidity  
My paradise, a realm of lust and perversion

Close your eyes sleep forever  
Close your mind. Explore  
With the angels  
Crying, weeping, dying  
As we go to war, against your soul

Blood strained is your soul as it is lost  
To my sinful lust  
And bleeding you shall die so close your  
Eyes and fall

Fall from your dream in a blood stream  
Fall from life into my paradisaal genocide
