

From The Dark Side

Gravediggaz

Intro:

Yeahhh

This is a story

That there are deep, situations, everybody go through in life

(It's something that we go through)

You know, it's that inside part of you that you don't tell nobody about

YaknowhatI'msayin?

From that inside, that dark space inside you

(It's something that we go through)

From that darker, that inner side of you

It's from the dark side

Verse One: Fruitkwan/Gate Keeper

Blaow blaow! No more knocks at your doors

It's just about to explode, hit the flooorrrrrrrrr

I come from a triple blood-shedding

Spreading, my heading, straight from Armageddeon

It's nowhere to run, nowhere to hide

Once you get slapped by the dark side

I was attacked, not clever to react

Small as a peep, I was deep in solar facts

My escapade level swelled

Threw up, fell

I grew up, five blocks from Hell

I'm used to seeing the grass grow black

Medaling pushing pedaling kids that pushed cracks

Murderers leavin they traces

Ya wasted, permitted destroying the human races

Fuckit I'm bringin ruckus

To brothers an APB out on the next Fredrick Douglass

I'm sort of a saint, you think I ain't

With skills to paint, with my third eye

You're tranked...

...from the dark side

Interlude: Prince Rakeem/Ryzarector

We expressing feelings, we expressing our dark feelings

So my feelings may be deeper than his or his feelings may be deeper than min
es

But it's all in the expressing of a feeling

(from the dark side)

Chorus: Too Poetic/Grym Reaper

You, are dumb, and deaf, and blind

You, are dumb, and deaf, and blind

You, are dumb, and deaf, and blind

You're dumb AND deaf AND blind

Verse Two: Too Poetic/Grym Reaper

In a time when every preacher large and small shall fool them

Using Revelations, as my crystal ball I see

more hordes of warlords who so hard they forgot

the graveyard TERRAIN, scar tissues of BRAINS

Be all illuminating soon the Illuminati platoons

of Satan lay waitin to slay men

Save your, amens, awaken

The reason that Grym is God

I escape through your synagogues
And gave the EGYPTIANS, ancient INSCRIPTIONS
Leaks into CHRISTIANS, turn all the facts into fictions
Here comes the Reaper with the shot to your system
I chop religions that concoct the vision
Feel the incision of the sword that's piercing your third eye
Coming straight from the dark side
...from the dark side

Chorus

Gravediggaz...
...in the dark side
Coming to take you...
...from the dark side back to the light
...from the dark side
you're in the dark side (yeah)
we're in the dark side
you're in the dark side
we're in the dark side
you're in the dark side
they're in the dark side
we're all in the dark side

You're dumb and deaf and blind (it's something that we goin through)
(from the dark side)
You're dumb and deaf and blind
You're dumb and deaf and blind
in the dark side
Yeah, Gravediggaz
