

## Forlorn Hope

Graveworm

What was the reason for you - doing that?  
What was the reason for your prevention?  
I've searched so long for you, endless night  
We promised to take it - all the deeps and highs

Timeless, deedless, honest  
My second I, second I, my second I  
Helpless, sadness, it's time for say good bye  
My second I

What was the reason for you, doing that?  
What was the reason for your, prevention?  
I've searched so long for you. My whole life  
We promised to take it  
Through the breaking tides

Forlorn, forlorn hope - broken down  
Forlorn, forlorn hope - in agony I remain

Loneliness I fear, for senseless I cry  
Forgotten in my mind, blackened my heart  
Is this the reason why I should die for you  
Rest in the darkness, aimless and alone  
Frames of my inner self, lost in a cell of war  
Forlorn hope, what was the reason why?

Forlorn, forlorn hope - broken down  
Forlorn, forlorn hope - in agony I remain

Timeless, deedless, honest  
My second I, second I, my second I  
Helpless, sadness, it's time for say good bye  
My second I

What was the reason for you - doing that?  
How could you do that (to me)?  
What was the reason for your prevention?  
I've searched so long for you - bitter sweet lie  
We promised to take it -  
Through the breaking tides  
I've searched so long for you, endless nights  
I've searched so long for you, my whole life
