

# Only Dead In Your Wake

Graveworm

From the ashes of time  
The spirits appeared  
Screams of pain from mankind  
The end of all life

Slaves for the leaders of hate  
Poison flows through our veins  
Eating from inside extinct the light  
Only dead in our wake

Blood for blood, I break your lies  
Your dying eyes see the dark  
Cry - die for me  
Your false world will fall for insanity

From a land beyond  
Appears on the sky  
Damnation - terrible faith  
Decades of damnation will arrive

See the suffering souls  
Swift away like the wind  
Descend into the abyss of pain  
Make this hell only for your pastime

All I see pain beyond pain  
Only death will survive  
Never see the true way of life  
Only dead in our wake

Slaves - I will see through your haze  
Lost inside the maze  
Slaves - Your innocent souls  
Surrounded by the ghost  
Slaves - Unending pain  
That always breeds within  
Slaves - Between the misery  
Only dead in our wake

Blood for blood, I break your lies  
Your dying eyes see the dark  
Cry-die for me  
Your false world will fall for insanity

From the ashes of time  
The spirits appeared  
Screams of pain from mankind  
The end of all life

Slaves for the leaders of hate  
Poison flows through our veins  
Eating from inside extinct the light  
Only dead in our wake

Slaves - Lost inside the maze  
Slaves - Surrounded by the ghost  
Slaves - That always breeds within
