## Where Angels Do Not Fly

## Graveworm

Tear down the walls
Wake up the death
I've chosen to suffer
The level of soulless life

Hiding behind (the veil) Leader ot the chosen one Fed up the nightmare Spreading their desease

Summon the beast Call loud out his name Starring eyes ot the death Where angels do not fly

Behind the gates of hell Fooling the blind Crawling the dark Hold your breath when I die

Follow the traces Living on your knees Feeling the fears Again and again

Cold as the world around
Reach the field
Of rotten souls
Watching the
Frozen pain
In search of souls inside
An ancient force of might
Where angels do not fly

The land where I was strong Where creatures come and go Watchin the frozen pain In search of souls inside An ancient force of might Where angels do not fly

Autumn still cries Whispers around Unleash the beast Obscure the light

Flee from the void Unveil the death Is heard from above

Angels cry before they die

Hiding behind (the veil) Leader of die chosen one Fed up the nightmare Spreading their desease Summon the beast Call loud out his name Starring eyes of the death Where angels do not fly
