

## Belief (To Rust)

Gravity Kills

Down by your wall I feel awake  
I am alone accepting my fate  
I have the answers twisting around me  
I found the answers of what I should be  
Down by your all I want you to stay  
I think of the place that ran you away  
I catch the rain that turns me to rust  
I stand in the flame that turns me to dust  
I can't believe  
That you might believe I'll heal you  
I can't believe  
That you might believe I want to at all  
That I want to at all
