

Clearest Indication

Great Big Sea

1. You left in the morning
You left without a word
Did you get what you came for
Is this what I deserve
Oh I know the silence was
the loudest thing I ever heard

R: Where do we stand, what am I supposed to do
Give me the clearest indication,
that I am not alone with you
Reach out your hand, in a world I thought I knew
I need the clearest indication,
the clearest indication from you

2. Did we have all we wanted
And let it slip away in time
Like a country divided
Fifty-one to forty-nine
Years ago, I suppose
We just can't seem to make up our mind

R: Where do we stand...

*: Times like these its hard to see
With any kind of clarity
What's the point of wondering anymore
So much I just can't figure out
I'd love to know without a doubt for sure, for sure

R: Where do we stand...

I need the clearest indication from you (3x)
