

Good People

Great Big Sea

1. The world today can be a scary place
Hard to keep your faith in the human race
We're running out of trees and we're running out of space
But we'll never run out of good people

2. Ask 'em for a shovel and they'll dig you a hole
Put the coffee on, call you in from the cold
If you get lost they'll show you where to go
Even give you a ride... good people

R: Good People are hard to find

Right around the corner
at "The End of the Line", It's true
Good people got peace of mind
I'd like to spend some time with you, oooh-oooh

3. A man ain't nothing if he ain't got a friend
Down and out, not a penny to spend
But the bells above will ring in the end
...For good people

R: Good People...

4. Rich and poor, we're born to be free
Fly around the world or sail the seven seas
But there's no place I would rather be
Than here right now with good people

R: Good People... (2x)

5. The world today can be a scary place
Hard to keep your faith in the human race
We're running out of trees and were running out of space
But we'll never run out of good people
